**Report on Seminar by Ar. Jai Narayan**

**Architect Jai Narayan** is a qualified architect and graphic designer, based in Bangalore. At a young age, Ar. Jai had to overcome an unexpected challenge of blindness by a genetic medical condition. Taking up this challenge positively, he changed his career to a communication skills trainer and professional speaker.

Ar. Jai uses his knowledge in architecture and design to develop his signature speeches.

He spoke to the students about challenges in professional life and the right steps to take when tackling them with the correct attitude.

The lecture ended with an interaction with the students asking an array of questions regarding their design processes and project management.

## Language Improvement Program Empowers AIKTC Students to Excel in Linguistic Abilities

In a groundbreaking initiative, AIKTC students were empowered to achieve greater linguistic prowess through the Language Improvement Program conducted in the **HAS language lab**.

The program, designed exclusively for students, aimed to provide an immersive and transformative learning experience. With interactive sessions, engaging exercises, and expert guidance from the instructor, participants were equipped with the necessary tools to sharpen their language skills and unlock their full linguistic potential.

This short report delves into the key features and outcomes of the program, showcasing how students are harnessing their newfound abilities to excel academically and embrace a future of linguistic excellence.

### 1: Spoken English Course for Final Year Pharmacy Students

**Program: Spoken English Course**

**Number of Beneficiaries: 12 students**

**Outcome: Confident Speakers and Effective Presenters**

This report outlines the results of the Spoken English Course conducted for the final year students of pharmacy. The program aimed to improve their spoken English skills and enhance their presentation abilities. The course was conducted over a period of 12 weeks (July-October 2022), with two sessions per week of 1.5 hours. 3 sessions were conducted on Zoom because of their holidays.

The 12 beneficiaries actively participated in various speaking exercises, including group discussions, presentations, and role-plays. They were provided with guidance on grammar, vocabulary, pronunciation, and effective communication techniques. Additionally, the course focused on developing their confidence and presentation skills.

**Innovative Teaching - Exuberant Learning**

Vision : To be the most sought after academic, research and practice based department of Computer Engineering that others would wish to emulate.

**DEPARTMENT OF HUMANITIES AND APPLIED SCIENCES**

As a result of the program, all 12 students demonstrated significant improvement in their spoken English proficiency. They displayed increased confidence while speaking and effectively conveyed their ideas during presentations. Their ability to engage with the audience and deliver persuasive speeches improved considerably.

The beneficiaries expressed gratitude for the course, stating that it positively impacted their communication skills and overall self-confidence. They acknowledged feeling better prepared for future academic presentations and professional engagements. The feedback received from both the students and their faculty mentor was overwhelmingly positive.

In conclusion, the Spoken English Course successfully empowered the final-year pharmacy students with enhanced communication skills. They transformed into confident speakers and effective presenters, which will benefit them in their future academic and professional endeavors.

## **2: Spoken English Course for BSc IT Students**

**Program: Spoken English Course**

**Number of Beneficiaries: 8 BSc IT students**

**Outcome: Confident Speakers and Effective Writers**

This report provides an overview of the Spoken English Course conducted for eight BSc IT students. The primary objective of the program was to improve their spoken English skills and enhance their writing proficiency. The course spanned over a period of 3 weeks (21 September - 12 October 2022), with 2 sessions (1.5 hours) per week.

During the course, the beneficiaries actively participated in various speaking activities, such as debates, discussions, and presentations. They were also provided with writing assignments to improve their written communication skills. The program focused on grammar, vocabulary, sentence structure, and effective expression in both spoken and written English.

**Innovative Teaching - Exuberant Learning**

Vision : To be the most sought after academic, research and practice based department of Computer Engineering that others would wish to emulate.

As a result of the course, all eight students showed significant improvement in their spoken English fluency and writing abilities. They gained confidence in expressing their thoughts and ideas verbally and demonstrated clarity in their written communication. The students also showcased improved grammar and vocabulary usage, which enhanced the overall quality of their written work.

The beneficiaries expressed their appreciation for the course, acknowledging its positive impact on their language skills and professional development. They highlighted the increased confidence they felt when interacting in English, both in academic settings and everyday conversations. The feedback received from the students was highly favorable.

In conclusion, the Spoken English Course successfully empowered the BSc IT students to become confident speakers and effective writers. The enhanced communication skills gained from the program will undoubtedly contribute to their academic success and future career prospects.

### **3: Live Online LinkedIn Workshop for (Computer Engineering and EXTC Engineering Students)**

**Program: 3-Week LinkedIn Workshop**

**Number of Beneficiaries: 12 third-year (T.E.) students**

**Outcome: Job Offer for EXTC Engineering Student**

This report summarizes the outcomes of a 3-week (19 December 2022 - 7 January 2023) LinkedIn Workshop conducted for 12 third-year students, consisting of both Computer Engineering and EXTC Engineering disciplines. The objective of the workshop was to equip the students with the necessary knowledge and skills to find jobs in today's digital world.

Throughout the workshop, the beneficiaries received comprehensive training on optimizing their LinkedIn profiles, building a professional network, and leveraging the platform for job search and career growth. The program also included sessions on resume writing, interview preparation, and effective job application strategies.

**Innovative Teaching - Exuberant Learning**

**Vision: To be the most sought after academic, research and practice based department of Computer Engineering that others would wish to emulate.**

**DEPARTMENT OF HUMANITIES AND APPLIED SCIENCES**

As a direct outcome of the workshop, one of the EXTC Engineering students (**Lala Daniyal 21DET05**) received a notable job offer. This student successfully implemented the teachings and techniques learned during the workshop, which ultimately led to securing a work-from-home position. The job offer included a monthly package of Rs. 45,000, highlighting the effectiveness of the workshop in helping the student secure a promising opportunity.

The remaining students demonstrated significant improvement in their LinkedIn profiles, networking skills, and job search strategies. They received positive responses from potential employers, with several students progressing to the interview stage in various companies. The feedback from both the beneficiaries and the workshop facilitator was highly encouraging.

In conclusion, the 3-week LinkedIn Workshop provided valuable insights and practical guidance to computer engineering and EXTC engineering students, enabling them to navigate the digital job market effectively. The success story of the EXTC Engineering student serves as a testament to the workshop's impact, showcasing its ability to translate knowledge into tangible job opportunities.
