Introduction

The Internal Smart India Hackathon (SIH) at Anjuman I Islam's Kalsekar Technical Campus, (AIKTC) Panvel, was organized to foster innovation and problem-solving skills among students. The event was aimed at creating awareness about SIH and encouraging participation from students of the Computer Engineering, Electronics and Computer Science (ECS), and Electrical branches. The hackathon took place on September 15th, 2023, coinciding with Engineers Day.

Event Preparations

Registration

The event began with the registration of teams by Collecting students details via google form. A total of 35 teams registered, representing various departments within the campus.

Selection of Single Point of Contact (SPOC)

Prof. Muhib Lambay was appointed as the Single Point of Contact (SPOC) by the college, responsible for coordinating with the SIH organizing committee and ensuring the smooth execution of the event.

Awareness Campaign

To create awareness about SIH, a targeted campaign was carried out, primarily focusing on students from the Computer Engineering, ECS, and Electrical branches. This included posters, emails, and presentations highlighting the benefits of participation and the significance of the event.

Evaluation Panel

The evaluation process adhered to the guidelines provided by Smart India Hackathon.

The following evaluation parameters were used for evaluating the team :-

- 1. Clarity of Concept:** Assess how well the team has articulated their concept. Is the idea clearly explained and easy to understand?
- 2. Innovative Concept:** Evaluate the uniqueness and creativity of the prototype concept. Does it offer a fresh approach or idea?
- 3. User-Centric Design:** Consider whether the prototype is designed with the end-users in mind. Does it address a real user need or problem?
- 4. Feasibility:** Evaluate whether the prototype has the potential to be developed into a functional product or solution in the future.
- 5. Technology stack:** If applicable, consider how technology is integrated into the prototype design and whether it's utilized effectively.
- 6. Problem Solving:** Evaluate how well the prototype addresses the identified problem or challenge.
- 7. Market Fit:** Explore whether the prototype meets the needs of a specific target market or user group.
- 8. Team Collaboration:** Assess how well the team worked together in creating the prototype. Did they leverage each other's strengths effectively?
- 9. Presentation Skills:** Evaluate the team's ability to communicate their prototype concept and its potential effectively during the presentation.

Valedictory Function

The valedictory function was graced by esteemed guests:-

- ❖ Ms. Sayali Subhane - Chief Guest from Skill Development, Employment & Entrepreneurship Office in Raigad.
- ❖ Dr. Ramjan Khatik, Director of Anjuman I Islam's Kalsekar Technical Campus, Panvel.
- ❖ Dr. Rajendra Magar, Dean of the School of Engineering and Technology.
- ❖ Mr. Javed Gauri from Karza Technologies, Mumbai.
- ❖ Mr. Habib Rajbhar from Vendkin Technologies, Pune.
- ❖ Prof. Tabrez Khan, Head of Computer Engineering Department.
- ❖ Prof. Bandanawaz Kotiyal, Head of ECS Department

Prof. Tabrez Khan, Head of the Computer Department, delivered a comprehensive overview of the event's objectives and significance. The esteemed Director of AIKTC, Dr. Ramjan Khatik, along with Dr. Rajendra Magar, the Dean of the School of Engineering and Technology, extended their warm felicitations to the chief guest, Ms. Sayli Subhane, acknowledging her presence and contribution. The event featured two distinguished external judges, Mr. Javed Gauri and Mr. Habib Rajbhar, who lent their expertise to the judging panel. Concluding the event on a high note, both the Director and the Dean addressed the students, offering words of encouragement and motivation as they embarked on their innovation journey.

Event Outcome

The Internal Hackathon at Anjuman I Islam's Kalsekar Technical Campus, Panvel, was a resounding success:-

- It provided a platform for students to showcase their innovative ideas and problem-solving skills.
- It created awareness about the Smart India Hackathon and its mission.
- It promoted collaboration and networking among students and industry professionals.
- It contributed to the development of practical solutions to real-world problems.
- It encouraged a culture of innovation and entrepreneurship among the students.

Overall, the event not only met its objectives but also exceeded expectations by fostering a spirit of creativity and innovation among the future technocrats of the college.

Deepshikha, an experienced architectural photographer for 12 years, is passionate about capturing the world of architecture. She focuses on the impact of natural light, skillfully using it to reveal intricate details and stories within structures. Each project showcases the blend of art and functionality, highlighting architects' and designers' creativity.

With meticulous attention to detail, Deepshikha seeks the perfect balance between composition, lighting, and the architecture's character. Inspired by a range of structures from historic to contemporary, her goal is to convey emotions and experiences through her photos. Each picture celebrates the interplay of light, shadow, and design in our world, aiming to share her sense of wonder and appreciation for this art form.

Shiva is the force behind Pickle Mumbai, a graphic design studio that he founded. Having studied architecture and working at boutique firms for a few years, Shiva was eventually drawn to graphic design's potential to communicate message, emotion, personality, and thought. From branding, spatial graphics, and way-finding systems, to urban campaigns and identity development, Shiva's work at Pickle is diverse. He is also a talented musician, a compassionate leader, and a proud cat parent.
